WIDE VARIETY OF COLORS

You don't own a boat very long before you realize that the fun you get afloat depends a great deal on her condition when she goes overboard at the beginning of the season.

Chances are the big fitting out problem will be painting. And it's a job that doesn't allow stinting—either in time or materials.

## *Introduction*

Dear Audience

We are very glad to see you all here and we hope that you will enjoy a pleasant evening.

Thanks to the cooperation of the different firms and persons we were able to present you this show for adults and youngsters tuned to the future visit of the Prince and Princess.

The goal of our organization is training to-day's youngsters to become the leaders of to-morrow. To create working-fields for practice and personal development, we have several projects for the community; such as

Dental Care Week, Toybank etc.

The profits of this night will be invested in these different projects.

We thank you very much for your presence and once more:

ENJOY YOURSELF

## A lady needs a change from time to time

It takes a fickle watch to make time with a changeable lady. New NIVADA Colorama VII changes face, swaps straps to suit all her fluctuating fashions. Seven case covers, five coloured straps give her every right to change her mind. Tiny 17-Jewel movement keeps time faithfully through every flipant change.

# Nivada COLORAMA VII

NIVADA watches are sold and serviced in over 100 countries. Nivada Grenchen (Switzerland)

A watch you can wear  
25 different ways!  
A beautiful watch,  
an unusual watch...  
a masterpiece by  
NIVADA.

# JUNIOR CHAMBER OFFERS RESPONSIBILITY

Junior Chamber is a world-wide brotherhood of young men... it welcomes to its ranks men of all religions... of all nationalities... of all races. It is established in some 90 countries, territories and colonies. It has members in more than 5,500 individual communities throughout the world.

More than 300,000 young men subscribe to the ideals of Junior Chamber International, as the global affiliation of the organization is called. As such they constitute the largest young men's organization in the world. Jaycees vary in age between 20 and 40 years, dependent upon the individual age limits of particular countries. In this fast-growing organization the basic message might be stated:

"Be a leader. Develop the abilities that now lie dormant within you. Train yourself through participation in Junior Chamber activities, to be a more responsible person in your business, in your community, in your family life".

Almost invariably, Junior Chamber's stocks are very high in any community. This is as it should be, and as it will certainly continue to be, provided all Jaycees live up to the ideals stated in the JCI Creed.

Eloquent testimonials have come to Junior Chamber from some of the world's greatest men, and increasing numbers of Jaycees are making their mark in the councils of the world.

DWIGHT D. EISENHOWER, speaking in 1958, as President of the United States: "Your organization has found common areas of agreement and understanding among men everywhere — a common desire for self-improvement, for the betterment of a more peaceful world. In working together to achieve these goals, Junior Chamber International is rendering a splendid service to the cause of international understanding, a basic step in the progress of mankind"

Tributes to Junior Chamber are by no means confined to the United States. High praise has come the way of Junior Chamber from such figures as:

ROBERT G. MENZIES, Prime Minister of Australia: "Junior Chamber permits men of all nations to discuss problems on a basis of mutual good will, making a significant contribution to the promotion of friendly relations among nations and thus to the cause of international peace".

DAVID BEN-GURION, Prime Minister of Israel: "In the world of today beset as it is by fear and lack of faith, every manifestation of fraternity and faith in humanity must be encouraged. Junior Chamber is dedicated to these ideals".
