TELEVISION
ADVISORY
COUNCIL**

The Netherlands Antilles Television Advisory Council was created to advance Antillian cultural, educational and social objectives through the medium of television.

Television management will be given the benefit of periodic advice and counsel from a group of wise, mature and dedicated people who constitute the Advisory Council. Through these Antillian citizens, leaders in their respective fields, and their participation in developmental programming, a creative exchange will evolve . . . a continuing opportunity more closely to attune the Antilles' most pervasive communications medium to public interest and growth.
